Kasper Engineering is the leading manufacturer and exporter of high-quality **Octagonal Poles, High Mast Lighting Poles and Flag Mast Poles**

## About Us

**Kasper Engineering** is the leading **manufacturer** and **exporter** of high-quality Electrical and Lighting Poles. Our journey initiated from **2013** and today we have achieved remarkable expertise in our product ranges. Starting from **Octagonal Poles, High Mast Lighting Poles** and **Flag Mast Poles**, we offer a variety of products. Our strength lies in the spellbound quality of our products that we deliver at reasonable and affordable rates. We are ISO 9001:2015 certified firm and our team consists of proficient experts and adept employees who possess the capability to design and engineer the poles as per client's specific requirements.

We invest in the latest manufacturing technologies with the aim to escalate our competence in the sector and provide deft opportunities to our clients. Our entire supply chain is assisted by a team of professionals who solely work for modelling the requirements of the client and for delivering their expectations within stipulated time.

The different types of poles brilliantly manufactured by Kasper Engineering has revolutionized many significant landscapes, highways and imperative locations of our country.

We are proud to be an indispensable part of the legacy and urge to widen our reach in near future.

We yearn to serve our clients and welcome them to be a part of our flourishing ecosystem!
